

TECHNICAL DATA

SUPREME HIGH TEMPERATURE MULTIPURPOSE GREASE

Supreme High Temperature Grease is a high performance, Multi-Purpose Grease, specially formulated for all type Industrial & Automotive application. It is Truly Multi-Purpose, One Grease for all type of Automatic Pump able, Centralized Bearings, Including Plain Bearings, Heavily Loaded Journal Bearings, Ball and Roller Bearings, Needle Bearings, Chassis and Excellent for most Automotive, Construction, Mining, Farming and Industrial Equipment.

FEATURES:

1. Truly multi-purpose for all types of bearings.
2. Excellent pump ability characteristics with grease gun.
3. Excellent shear and mechanical stability.
4. Excellent Extreme Pressure properties.
5. Excellent water wash out resistant.
6. Excellent adhesives and cohesive properties.

TYPICAL SPECIFICATIONS:

NLGI (ASTM D 217)	2
Appearance	Golden
Thickener	Lithium Complex
Cone penetration	275
Dropping point (ASTM D 2265)	260°C
Corrosion Prevention	Pass
Oil separation	3.6
Worked penetration	265
Texture	Smooth
Water resistance	1-90
Base Oil viscosity @ 40°C	180
